## Inditrons

National Union's variety of Inditron Tubes are low cost indicators that can be tailored to suit any particular application. Numerals, words, letters, digits or any other kind of characters can be superimposed in many different sizes and shapes of glass envelopes. There are many uses of these indicators in the fields of automation--computers--automotive, aircraft and marine instrumentation--various electronic and electrical equipment. Typical applications are indicators for speed, temperature, fuel, and pressure gauges--meters--elevators--scoreboards--displays--clocks--amusement and game machinery.

Standard types available from stock.
